

## Industry Communication

### e-bingo Gaming Initiative – 03

After the recent success with the *Information Meetings* on the above initiative, one of the requests from the Commercial Operators has been for a 'Standard or Template' letter to formally confirm their *Interest* in this program. As a result, I have enclosed a draft letter for you to complete and forward back to my office with your signature attached as well.

This Association (CGAO) and our Charity Colleagues (OCGA) are looking to provide formal lists back to the OLG. Once we both have a list, we will merge the two in order that we have a combined list of willing Commercial Operators and Bingo Centre Charity Associations who wish to move forward.

I would state once again, this program is *all about choice*. No one will be forced to move to 207:1:a. These decisions need to be made on what is best for your Bingo Centre in your market. We, in the CGAO, are pleased that there has been a real level of excitement and willingness to embrace the opportunity this presents. There is some very encouraging feedback from the *information sessions*.

I would ask all Commercial Operators to encourage their Bingo Centre Charity Association to complete the form sent out by the OCGA and return it back to their office so we get the combined picture.

Should you have any questions, please contact me direct.
